

Press release.

Following many negative experiences with our democratic system, the idea matured in November 2025 to contribute my life experience and establish an institute dedicated to communication, dignity and participation. As these considerations became increasingly concrete, the idea gradually took shape through initial concepts for establishing the institute and the creation of its own website.

On 13 July 2026, the establishment of the Institute was notarised and, finally, on 14 August 2026, it was entered in the Commercial Register under HRB 231214 by the Hanover Local Court as the competent registry court.

For reasons of transparency, we have published the corresponding administrative steps on our website.

As founder and Managing Director, I am very proud of what has been achieved and hope to find supporters who feel equally committed to this goal. Following the preliminary confirmation of our non-profit status, the application for recognition of non-profit status was submitted to the Nienburg/Weser Tax Office by post on 20 August 2026. We will provide an update as soon as this process has been completed.

Neustadt, 22th of August 2026
